NOW THEREFORE IT IS HEREBY ORDERED, this document is accepted by the Court as the protocol to be used in responding to, investigating and prosecuting cases arising from an alleged sexual assault and shall be spread upon the minutes and filed with the Clerks of the Superior Court of the Appalachian Judicial Circuit.

SO ORDERED, this 22 day of December, 2025.

HONORABLE BRENDA S. WEAVER, CHIEF JUDGE
APPALACHIAN JUDICIAL CIRCUIT

This Sexual Assault Protocol (“Protocol”) is adopted pursuant to O.C.G.A § 15-24-2 for the purpose of outlining the procedures to be used in responding to, investigating and prosecuting cases of sexual assault. The purpose of this Protocol shall be to ensure coordination and cooperation between all agencies involved in sexual assault cases to increase the efficiency of all agencies handling such cases and to minimize the stress created for the sexual assault victim by the legal and investigatory process¹.

The mission of the Appalachian Circuit Sexual Assault Response Team (SART) is to:

- o Promote consistent, comprehensive, sensitive, and non-judgmental treatment of victims of sexual assault as they progress through the victim services, health and criminal justice system;
- o Standardize the collection of evidence in order to aid in the prosecution of cases;
- o Develop a coordinated effort among health providers, law enforcement personnel, prosecutors and victim advocates to ensure that victims efficient and comprehensive medical care, evidentiary examination, emotional support and referral information;

For purposes of this Protocol, the term *victim* shall refer to adult victims. Additionally, a victim under the age of 18 may be served by this Protocol if the sexual assault is considered acute, or requiring an immediate medical forensic examination for biologic evidence collection. Every sexual assault case involving victims under 18 should be evaluated individually based on age, assault history, medical needs and evidentiary factors and the best resources available to the victim and the investigation. In providing services to anyone under the age of 18, DFCS and/or law enforcement shall be notified pursuant to OCGA Section 19-7-5. Existing child abuse protocols should be followed when the victim is a minor and has been sexually abused. An agreement between North Georgia Mountain Crisis Center and the Appalachian Children’s Advocacy Center shall define access to and sharing of client records. In providing services to anyone under the age of 18, Georgia Division of Family & Children Services (DFCS) and/or law enforcement shall be notified pursuant to O.C.G. A § 19-7-5.

- Medical and forensic exams may be offered in all cases of sexual abuse, regardless of the length of time that may have elapsed between the most-recently reported sexual contact and the examination. Clinical providers will contact an appropriate medical expert if a consultation is needed.
- Forensic medical examinations (FMEs) and sexual assault examinations can help to: 1) screen for injuries and medical conditions and initiate medical treatment; 2) answer questions and reassure victims and parents about the child’s physical well-being; and 3) identify medical evidence to prosecute the offender(s).
 - o Forensic medical examinations^[1] and sexual assault exams will be conducted using a trauma-informed, culturally sensitive, rights-based approach. Options include the local Child Advocacy Center (CAC) or Sexual Assault Center (SAC) that has a Sexual Assault Nurse Examiner

¹ O.C.G.A. § 15-24-2; provided, however that a failure by an agency to follow the protocol shall not constitute an affirmative or other defense to prosecution of a sexual assault, preclude the admissibility of evidence, nor shall a failure by an agency to follow the protocol give rise to a civil cause of action.

(SANE) and a Sexual Assault Victim Advocate (SAVA). Some CACs also have an on-site medical examination room. Other places that conduct these exams are:

- SafePath Children’s Advocacy Center (Wellstar Health System) (for children 18 or younger (736 Whitlock Ave. NW, Suite 600, Marietta, GA 30064, Phone: 770-801-3465)
- Children’s Healthcare of Atlanta - Scottish Rite (CHOA) (1001 Johnson Ferry Rd NE, Atlanta, GA 30342, Phone: 404-785-5437)
- LiveSafe Resources (for children 13 or older) (48 Henderson St. SW, Marietta, GA 30064, Phone: 770-427-2902).

Consult the child advocacy for appropriate medical services. Hospital emergency rooms are able to conduct medical evaluations for the health of the child. Some hospitals may have a pediatric SANE who can conduct the sexual assault examination. If the child is taken to the Receiving Hope Center (RHC), this exam may be conducted there.

o Payment for these exams is available and supported through the Georgia Criminal Justice Coordinating Council (CJCC); victims should not be asked for payment.

o Victim advocacy services^[2] during the exam process will be offered. The National Protocol for Sexual Assault Medical Forensic Examinations – Pediatric recommends the provision of timely access to victim advocacy services during the exam process. Victim advocates typically function to aid victims and their families in getting help to cope with the impact of sexual abuse in their lives and to promote healing. Advocates also encourage coordination and collaboration among responders so that interventions are child-focused and trauma-informed.

o The evidence collection kit will be sent to the GBI Crime Lab by the appropriate law enforcement agency. Victims of sexual assault may come to a hospital located outside of their county or state of residence or outside of the jurisdiction where the assault took place. The law enforcement agency in the jurisdiction where the assault occurred is the law enforcement agency charged with investigating the assault and facilitating transfer of the evidence collected from the hospital to the appropriate forensic lab in the jurisdiction where the assault took place.

o A debrief with the doctor, nurse, or SANE who conducted the exam is an integral part of the investigation.

If the victims are under the age of 16 years, statutory rape may be applicable and a parent/legal guardian may bring the victim for the examination and collection of evidence. In this situation, the victim's cooperation to report may not be required. In these cases, law enforcement may have the parent/guardian consent for the examination and collection of evidence.

ADVOCACY

The role of the Sexual Assault Victim Advocate² (SAVA) is to provide services to the victims of sexual assault regardless of whether the victim chooses to report the assault to law enforcement. They play a very important role in providing a response that keeps the victim central

² Defined as a trained sexual assault victim advocate working with a Georgia certified sexual assault center.

in the process, allowing the investigation and prosecution to be offender focused. Advocacy also has a critical role in promoting the healing process for the victim. Sexual assault victim advocates provide crisis intervention, support, family advocacy, information and referral and other ancillary services to assist the victim through the criminal justice process. The support provided by the sexual assault victim advocate also benefits the criminal justice process, because supported, well-informed victims are more likely to continue through the process. Advocates will operate under the guidelines established by *The Georgia Crime Victim's Bill of Rights* (O.C.G.A. § 17-17-1) and will adhere to best practices as outlined in the *Georgia Sexual Assault Response Team Guide Version 2* (available at <https://svrga.org>) and the *Georgia Sexual Assault Certification Standards*.

Responsibilities of the sexual assault victim advocate include:

- Being available to victims and families 24 hours a day, 7 days a week via a 24-hour crisis line staffed by trained community advocates;
- Providing services to victims and families that are sensitive to the unique barriers and special considerations that diverse victims encounter in reporting sexual assault crimes;
- Providing options to victims so that they may make informed decisions;
- Supporting victims who choose to report to law enforcement by assisting in eliminating barriers affecting the victim's participation in the criminal justice process;
- Maintaining victim confidentiality; and
- Offering services to non-reporting victims and assisting if and when the victim decides to report.

Victims may also work with systems-based victim advocates if the case progresses through the criminal justice system to the point of prosecution. *See Appendix A for more information.*

MEDICAL FORENSIC EXAMINATION PROCEDURES

The role of forensic medical personnel is to provide a timely, high-quality Forensic Medical Examination that can potentially validate and address sexual assault patients' concerns, minimize the trauma they may experience, and promote their healing. At the same time, it can increase the likelihood that evidence collected will aid in criminal case investigation, resulting in perpetrators being held accountable and further sexual violence prevented.

Forensic Medical Examinations may be performed at the most appropriate and/or expedient facility available. The North Georgia Mountain Crisis Network Sexual Assault Center in Blue Ridge is not yet operational. Forensic Medical Exams should be offered regardless of whether the victim is choosing to report to law enforcement or chooses to report anonymously. Forensic

Medical Examinations shall be performed by a Sexual Assault Nurse Examiner (“SANE”), physician, nurse practitioner or physician’s assistant (“PA”) trained in performing such exams.

Forensic medical responsibilities include:

- Obtaining informed consent from the patient or their guardian for the Forensic Medical Examination, documentation and evidence collection;

Providing the patient with the kit number and PIN prior to leaving the exam.
