FORSYTH COUNTY SEXUAL ASSAULT PROTOCOL

This Forsyth County Sexual Assault Protocol ("Protocol") is adopted pursuant to O.C.G.A § 15-24-2 for the purpose of outlining the procedures to be used in responding to, investigating and prosecuting cases of sexual assault. The purpose of this Protocol shall be to ensure coordination and cooperation between all agencies involved in sexual assault cases so as to increase the efficiency of all agencies

handling such cases and to minimize the stress created for the alleged sexual assault victim by the legal and investigatory process¹.

For purposes of this Protocol, the term *victim* shall refer to victims aged 13 and older. Every sexual assault case involving victims under 18 shall refer to the Forsyth County Child Abuse Protocol in identifying appropriate services and resources. Per the state model Child Abuse protocol, those services and resources should include Rape Response, Inc. d/b/a Bridging Hope (hereinafter Bridging Hope) in providing services to adolescents in acute cases. An agreement between Bridging Hope and Forsyth County Child Advocacy Center shall define access to and sharing of client records. In providing services to anyone under the age of 18, DFACS and/or law enforcement shall be notified pursuant to O.C.G. A § 19-7-5.

ADVOCACY

The role of the sexual assault victim advocate² is to provide services to the victims of sexual assault regardless of whether or not the victim chooses to participate in the criminal justice process. They play a very important role in providing a response that keeps the victim central in the process, allowing the investigation and prosecution to be offender focused. Advocacy also has a critical role in promoting the healing process for the victim. Sexual assault victim advocates provide crisis intervention, support, family advocacy, information and referral and other ancillary services to assist the victim through the criminal justice process. The support provided by the sexual assault victim advocate also benefits the criminal justice process, because supported, well-informed victims are more likely to continue through the process.

Responsibilities of the sexual assault victim advocate include:

- Being available to victims and families 24 hours a day, 7 days a week via a 24-hour crisis line staffed by trained community advocates
- Providing services to victims and families that are sensitive to the unique barriers and special considerations that diverse victims encounter in reporting sexual assault crimes
- Providing options to victims so that they may make informed decisions
- Supporting victims who choose to report to law enforcement by providing a link to eliminate barriers effecting the victim's participation in the criminal justice process
- Maintaining victim confidentiality
- Offering services to non-reporting victims and assisting if and when the victim decides to report

Victims may also work with systems-based victim advocates if the case progresses through the criminal justice system to the point of prosecution.

LAW ENFORCEMENT

The role of the investigating officer is to ensure the safety of the victim and the community and to ascertain if the report of sexual assault meets the elements of a crime under Georgia law. Within their

MEDICAL FORENSIC EXAMINATION PROCEDURES

At the same time, it can increase the likelihood that evidence collected will aid in criminal case investigation, resulting in perpetrators being held accountable and further sexual violence prevented.

Acute Medical forensic examinations shall be performed at Bridging Hope. Acute cases are as follows: vaginal assault within 120 hours; anal assault 72 hours; oral assault 24 hours and saliva on skin within 96 hours of the reported sexual assault. Any case that presents outside the time frame of 120 hours requires a medical consultation with the on-call examiner to determine the next appropriate steps which may still involve evidence collection through a SANE Exam. Medical forensic exams should be made available if patient chooses to report or chooses not to report.

Medical forensic examinations shall be performed by a Sexual Assault Nurse Examiner ("SANE"), physician, nurse practitioner or physician's assistant ("PA") trained in performing such exams.

BIOLOGIC EVIDENCE COLLECTION

The examiner will collect biologic samples at the request of a patient, in accordance with currently accepted protocol (defined as the *National Protocol for Sexual Assault Medical Forensic Examinations Adults/Adolescents*), to obtain timely biologic reference samples for possible analysis at the GBI Crime Lab. At the conclusion of the sexual assault medical forensic examination, any evidence collected will be packaged and protected in a manner to ensure the integrity of specimens and the appropriate chain of custody of the evidence.

All biologic samples, fluids, hairs and other evidence requiring GBI analysis will be given directly to the case investigator for processing using a proper chain of evidence. Evidence will be collected up to a minimum of 120 hours after assault. In addition, cases should be evaluated on an individual basis as the medical forensic examination may be completed beyond 120 hours.

All biologic samples, fluids, hairs and other evidence requiring GBI analysis will be given directly to the case investigator for processing using a proper chain of evidence.

Pursuant to SB 304/O.C.G.A. § 35-1-2, it shall be the duty of every law enforcement officer who takes possession of the evidence collected during a sexual assault forensic medical examination to ensure that such evidence is submitted to the division within 30 days of it being collected.

Urine collected for analysis can be collected up to 120 hours and may be submitted to the Georgia Bureau of Investigations Crime Lab, the Federal Bureau of Investigations Crime Lab or other private lab for toxicology drug screen.

Blood collected for analysis can be collected up to 24 hours and may be submitted to the Georgia Bureau of Investigations Crime Lab, the Federal Bureau of Investigations Crime Lab or other private lab for toxicology drug screen.

All biologic evidence collected at the request of a patient who chooses not to initiate and participate in and/or cooperate with a law enforcement investigation shall be maintained by Bridging Hope.

Medical forensic examinations and biologic evidence collection should be completed as quickly as possible after a report is received.

Medical forensic examinations and biologic evidence collection shall be conducted in accordance with Georgia Bureau of Investigation (GBI) procedures using a GBI Sexual Assault Evidence Kit.

The SANE, physician, nurse practitioner or PA will complete appropriate authorizations relating to the examination.

The SANE, physician, nurse practitioner or PA will photograph and document injuries and prepare a report.

The SANE, physician, nurse practitioner or PA will maintain and document the chain of custody of any evidence collected during the examination and assessment.
