MEMORANDUM OF UNDERSTANDING

As partners on the Fulton County Family Violence Task Force, we hereby agree to continued support of all initiatives directly related to the quality and professional service to victims of crime. Each agency or department is aware of the need for open communication, so that the most extensive services to victims and their families may be obtained. Each agency or department will continue to be a valued resource, provider, support, educator, and vehicle for each other in the overall effort to assist victims of crime and their families in the most comprehensive manner while working towards offender accountability.

Many agencies provide specialized services to particular populations of victims and/or perpetrators in Fulton County. This partnership is essential to providing comprehensive services to victims, as the needs of any particular victim may transcend the individual agency's mission. As expected, systems will overlap each other in terms of general victim advocacy but will remain true to their specialized services.

By signing below, the agency is showing support and demonstrating their partnership in the above stated goal:
